GLENN HAUSER`S EQUIPMENT. Some editors keep reproducing out-of-date list. Notably, FRG-7, out of service for many years. I still have two of them, neither funxional, on the table next to my primary Icom R75. Other primary is JRC NRD-545. I have several portables but the only ones in regular use as backup or mobile are Tecsun PL-880 and Radio Shack DX-398. Antennas, besides telescopic are indoor random wire clipons, Wellbrook ALA 330S loop indoor permanently aimed E/W for the JRC; and 100 foot E/W longwire for the Icom. And BSR-1 caradio, with fender antenna of about one foot which still gets amazingly a lot.

DX/SWL/MEDIA PROGRAMS
updated June 4
http://www.worldofradio.com/dxpgms.html

** ANTARCTICA. 15475.98 RCUSB, Saturday June 4 at 1420, no signal yet into Buenos Aires SDR, but by recheck 1454, LRA36 is on with song, S2-S5; occasional 2-way QRM from local receiver overload, so I check the other three Kiwis in Argentina, four in Brasil, one in Uruguay, but none have as good a signal, if any. 1459 Hola, formal canned sign-on with multilingual IDs including English that this is in Spanish; 1500 Antártida song; 1504 YL talk. It`s really too weak to understand much. 1505 a few seconds of cacophony. 1509 conversation seems live. 1512 OTH radar? burst QRM a few seconds. 1529 interview on phone. 1537 song. 1542 contact info. 1548 phone interview. 1600 more QRM. 1604 ID with music, song; 1610 weakening, 1616 JBA, 1622 either off or faded out. There was supposed to be a repeat starting this Saturday at 1800, but no sign of it in several chex that hour. Maybe on but still faded out? BTW, I missed checking for it at all on Wednesday June 1 around 1500. Gary Pence in Dallas was also monitoring remotely today and says by 1600 it was S9 into LU4AA remote (Glenn Hauser, OK, WOR)

** ANTARCTICA. 15475.98 RCUSB, Wednesday June 8 at 1454, LRA36 is already on with music prélude, S3/S7 into Argentine SDR. 1500 canned sign-on in languages, Antártida song. 1508 YL with live-sounding opening, mentioning staff names, for this program #6 of the season. Usual mix of historical info, conversation, contact info, etc. But I`m too busy to detail or follow past 1532 (Glenn Hauser, OK, WOR)

** BRAZIL. 9666.7, June 2 at 0003, RVM with martial gospel music, S7/S8; not measured precisely but obviously back below instead of above 9667 where had been for several days (Glenn Hauser, OK, WOR)

** BRAZIL. 9665.070V, June 4 at 0512, RVM, S4/S5 but always well-modulated, Portuguese and music, the closest it`s been to nominal 9665 in ages after varying even above 9667 lately (Glenn Hauser, OK, WOR)

** CANADA. 18127.5 USB, June 4 at 2155, VX1BB calling CQ, as a
``special prefix`` from Nova Scotia. So special or new he is not found
in qrz.com. Immediately makes a contact (Glenn Hauser, OK, WOR)

** CANADA. Re my log of VX1BB, Richard Langley refers us to:
https://www.rac.ca/special-call-signs-available-in-honour-of-the-queens-platinum-jubilee/
A table showing special prefices, so this is really VE1BB:

VE1BB Canada flag Canada

STILLWATER LAKE, NS B3Z 4P5
Canada
and more about him at:
https://www.qrz.com/db/VE1MMD
(Glenn Hauser, OK, WOR)

** CHINA. 15920, June 3 at 0637, JBA carrier, presumed usual CNR1
jammer against Sound of Hope (Glenn Hauser, OK, WOR)

** CHINA. 17615, June 3 at 0642, music at S6/S8, second SSOB only to
17530 BBC Madagascar. EiBi shows two widely divergent CRIs now: German
via Urumqi, Chinese via Kunming (Glenn Hauser, OK, WOR)

** CUBA [and non]. 11775, June 2 at 0008, pulse jamming vs a JBA
carrier. Never a Martí here, nor Caribbean Beacon, Anguilla, as Aoki
still imagines: rather only thing besides Dengê Welat at other hours
is CNR1 jamming and Sound of Hope on 11774.8 per EiBi. So the CubaCom
are helping out the ChiCom, ha (Glenn Hauser, OK, WOR)

** CUBA. 6000, June 2 at 0012, S7/S8 of dead air in English, but
achieves undermodulation on 6165, S7/S9+20.

5990, the CRI relay has very undermodulated music at S7/S9+20.
Something`s always wrong at RHC, RadioCuba. The other side:

``READ TODAY THE CUBA OF TOMORROW
'Enough excuses. This is no way to live, or work' Cubans blow up over
the blackouts --- The Ministry of Energy and Mines warns Cubans that
'the electric service will continue to be affected in the coming
days'.
DDC | La Habana May 31, 2022 ELECTRICITY
Felton Thermoelectric Plant, in Holguín. Juan Pablo Carreras (Unión
Eléctrica/ Facebook) [caption]

The state-owned Unión Eléctrica (UNE) called the situation facing the

National Electric Service ?complex,? while on social media Cubans are venting their weariness with the ongoing blackouts they constantly suffer, which worsened this week after the shutdown of several generation units...``
https://diariodecuba.com/cuba/1653928851_39858.html

But supreme priority jamming against nothing unabates. However, some RHC broadcast frequencies have been unusually weak lately (Glenn Hauser, OK, WOR)

** CUBA. 13740, June 6 at 0358, RHC in Spanish S9+10 just before cutting off at 0359* like MWV on 13760. EiBi agrees -0400* while Aoki says -0500*. Sometimes it`s on much later accidentally in English (Glenn Hauser, OK, WOR)

** CUBA. 11760, June 6 at 1502, RHC Spanish S7/S9 but suptorted = suppressed and distorted modulation; only // 15140 is S9/+5 and merely undermodulated. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11850, June 8 at 0614, RHC English! S9+10/20 and suptorted; also JBA & JBM parasite carrier spurs on 11840 & 11860, encountered whilst checking for missing 11835 Vanuatu. 11850 at this hour is totally bonkers. Aoki shows it at 22-06 in Spanish but not heard as late as 0600; EiBi shows 21-05. Something`s always wrong at RHC. Otherwise in English 0615+: 6000 S9+10/20 weather, suptorted but better than 11850; 6060 S9+10/20 with hum; while 6100, 6165 and 5040 are all off (Glenn Hauser, OK, WOR)

** CUBA. 9790, June 8 at 0623, huge open carrier S9+20/30. Got to be CRI relay aimed thisaway, which is finished at 0500. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** FRANCE. 15215.09V, June 3 at 0639, JBA unstable carrier. EiBi shows it`s DW in Hausa via Issoudun at 0630-0700 on ``15215``; same also at 13-14 and 18-19 -- one of the defective ISS transmitters. Not to be confused with Gaweylon Tibetan Radio which is axually shown as 15215.1 via UAE, but at 1200-1230 only (Glenn Hauser, OK, WOR)

** ITALY. 18135 USB, June 7 at 2105, IZ5UGP says it`s too hot for him, 33-35 C, contact with weaker K4LZZ in NC. Found this after no activity on 28, 27, 24 and 21 MHz bands. 17855 Spain inbooming as usual so there ought to be more Eurohams on 18 MHz. But no other phone QSOs heard at all on band. QRZ.com:

IZ5UGP Italy flag Italy
Fabrizio Battini
Via Della Cartiera, 12

56025 Pontedera, PI
Italy

Pontedera is in Pisa province, Tuscany; original Latin name: Pons Herae, per Wikipedia (Glenn Hauser, OK, WOR)

** MADAGASCAR. 13760, June 6 at 0358 song in English, VG until cut off at 0359*. Another station which does not feel obliged to ID at start and finish of each broadcast! Scheduled is MWV, but confusing contradixions about programming. EiBi says it`s African Pathways Radio, to S Asia. But why would they be doing that, rather than KNLS English hour which is Asian-orientated? HFCC agrees it`s on 40 degree beam for CIRAFs 41 & 42S = S Asia, altho bigsig here implies it`s really aimed thisaway across Africa. Aoki does not decide, just English from WCB; and BTW, V of Korea [North] is also listed on 13760 at 03-04 in Spanish. Bulgarian DX Blog for A22 shows 03-04 on 13760 as KNLS English at 40 degrees from MWV; while English from APR follows at 04-05 on 11825, also well heard here. It`s also quite possible that Mahajanga mix up its azimuths and programming (Glenn Hauser, OK, WOR)

** OKLAHOMA. 255 MCW kHz, June 2 at 0020, SW, Stillwater NDB seems off again --- no, it`s JJBBA in storm noise, almost imagination level (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 515 MCW kHz, June 7 at 2111, PN, ND beacon at Ponca City, a regular here 24h, is OFF. Still audible are 341 EI Enid, and 350 RG OKC; not sure about 255 SW Stillwater in the storm noise (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 27185, June 3 at 2221, while I`m logging 10m ham beacons, see USA, I also check CB, to find huge horrible pulsing noise centered on major CB calling frequency, hitting S9+52, surely something local jamming, also wideband, audible as far out as 27090-27270! Still/again on at 2154 June 4.

[non] On the June 3 occasion, skip was also in with pileups around 27025, 27086; and somebody on 26975 at 2224 IDing as ``NC 113`` (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 27184.4, June 5 at 2214, S9+26 carrier with tone locally jamming the CB calling channel.

27185.6 & 27184.5, June 6 at 0354, S9+10 carrier with tone on local groundwave, not clear which is carrier and which is tone. Zero-beating one or the other, one hears silence on USB or LSB.

27185, June 6 at 1507, frequency finally clear except for JBA carriers. No sporadic E skip now on CB (Glenn Hauser, OK, WOR)

** SAO TOME. 15400.072, June 8 at 0605, S2/S4 in French. It`s BBC at 0600-0630 & 0700-0800; off-frequency via USAGM Pinheira. Something`s always shifty in São Tomé (Glenn Hauser, OK, WOR)

** TURKEY. 9830, June 6 at 2225, VOTuerkiye English, VG into UTwente but with some hum, feature whose name is illegible in my scribble, about eroticism leading to dementia --- what?? Listening more closely, it`s neuroticism, whew; or unwhew? (Glenn Hauser, OK, WOR)

** UKRAINE [non]. 7730, June 2 at 0500-0508, UR1 via WRMI, `Ukraine: Security Issue`, daily war report, by different YL than usual, this one with an accent.

7730, June 3 at 0500-0507, same for 2 June = Day 99 of war, by fast-talking accented OM. Both good into Maryland SDR (Glenn Hauser, OK, WOR)

** UKRAINE [non]. 7730, Sat June 4 at 0500-0508, UR1 via WRMI, English war report `Ukraine: Security Issue`, VG into Maryland remote (Glenn Hauser, OK, WOR)

** UKRAINE [non]. 7730, June 5 at 0500-0507, UR1 via WRMI, `Ukraine: Security Issue` now usually starts after very brief UU announcement. This time voiced by YL#2 with an accent, starting with mortality figures in the hundreds of Ukrainian children killed by the Russians. VG into Maryland SDR (Glenn Hauser, OK, WOR)

** UKRAINE [non]. 7730, June 6 at 0500-0506, UR1 via WRMI, `Ukraine: Security Issue` for June 5 = day 102 of Russia`s war, by YL anchor; including: renewed missile strikes on Kyiv; French Pres. Macron criticized for saying that Putin should not be humiliated. Good via Maryland SDR (Glenn Hauser, OK, WOR)

** UKRAINE [non]. 7730, June 7 at 0501.5, UR1 via WRMI, `Ukraine: Security Issue` by YL, including: there`s a 2-day queue among survivors in Mariupol to get drinking water. Russia has set up ``looting centers`` where stuff stolen in Ukraine is for sale. VG via Maryland SDR (Glenn Hauser, OK, WOR)

** UKRAINE [non]. 7730, June 8 at 0500-0505, UR1 via WRMI, `Ukraine: Security Issue`, this time by the rapid man; items include Russian loss statistix; UN official in Kyiv and elsewhere investigating Russian war crimes, sexual violence. VG via Maryland SDR (Glenn Hauser, OK, WOR)

** U K [non]. 17530, June 3 at 0642, BBCWS in English about Ukraine, S7/S9 via MADAGASCAR, // stronger 13600 via SAO TOME. Nightmiddle

summer propagation from Africa is hopping (Glenn Hauser, OK, WOR)

** U S A. 6878.5 USB, June 2 at 0000, MARS net introducing a digital message. 0015, ``6DB`` is asked to make a net call in which he gives his full call fonetikaly, AAR6DB. I run across this after finding no pirates on the 6.9 MHz band. I made a much more detailed log of Army MARS on 6878.5, at the same hour on May 26, 2020, as in this roundup: http://www.w4uvh.net/ghlogs_2020_0521_0528.txt
(Glenn Hauser, OK, WOR)

** U S A. In between sporadic E openings into the FM band, June 3 at 2205-2248 UT, I get some lower-MUF beacons on the 28 MHz ham band. As often the case, when CW beacons are audible I don`t hear any phone USB stations higher up in band, and vice versa. Listings looked up at WJ5O roster; https://www.qsl.net/wj5o/bcn.htm --- where crossed zeroes in calls are really crossed letters in Scandinavia. Many of the same ones were logged June 16, 2021, q.v., some with additional qrz.com info. Makes you wonder if only a few in the huge WJ5O roster be currently active.

28250, at 2205, K0HTF/B - sends nothing but call over and over.
28.250 KØHTF C URBANDALE, IOWA # 3W, INVERTED V New QTH 19 June 17

28251.6, at 2208, JBA with a long message. Also at 2227, K#6KE? Still JBA with fades, also long 35-second pauses: easily missed when scanning. No VVV or CQ but starts immediately with call. At 2248 seems more like KE4J#. Nothing closer than this to match:
28.2515 KE5JXC C PECAN ISLAND, LOUISIANA # 5W VERTICAL new 10 Sept 15

28298, at 2211, K5TLL/B EM51gg, strong with no pauses
28.298 K5TLL C HATTIESBURG, MISS. # 25W, VERTICAL New Freq 14 Dec 08

28300, at 2214, K6FRC/B, only the call. Haven`t heard him on 13564 in quite a while. Which one applies? No exact match /B:

NORTH SHORE RADIO CLUB INC
PO BOX 1066
Highland Park, IL 60035
Welcome, NS9RC is the club call of the North Shore Radio Club near Chicago. Our club's web site is: ns9rc.org

To help discover 10M band openings, the NSRC has operated a propagation beacon on 28.297 MHz since 2001. It is located at the Heller Nature Center in Highland Park, IL about 27 miles north of downtown Chicago. The beacon was built from a Radio Shack HTX-100 running 5 watts to a Cushcraft AR-10 half wave vertical. CW message

keying is performed by an Ultimate PicoKeyer. The 10M band is open a lot more than you may think, even during periods of low sunspot activity, so be sure to check the beacon portion of the band between 28.200 and 28.300 regularly, you may be pleasantly surprised with what you hear. Reception reports on our beacon are always welcome and over the years we have received them from over 30 countries and every continent except Antarctica. We will gladly send a QSL card if requested, please send your report to KK9H.

Regardless of where We are in the sunspot cycle..... I'm 99% a 10 Meter Operator. The WJ5O propagation beacon can be heard on 28.289.3 MHz and has been in operation since June 1992 running two Watts into a roof mounted Vertical.

This and some of the others are also familiar from last year(s). At 2337 local noise level bumps up so a good time to quit. About midway thru the session there was a phone QSO already on 28310 USB. And nothing else higher. WJ5O list shows a few foreign beacons up to 28322.6 but the top USA one is 28304.6 in OR (Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2140 monitoring: confirmed UT Thursday June 2 at 0030 on WRMIs: 9395 & 9455 both VP in local noise level, S5/S7 into Missouri SDR; but both VG into Knoxville SDR, S9+15/25 on 9395,

S9+5/15 on 9455.

Also confirmed UT Thursday June 2 at 0130 on WRMIs: 9395 S9+15/25 into Knoxville; 5010 S9/+15 into Bonaire.

New WOR 2141 should be ready early UT Fri June 3 for first broadcasts at 0130 on WRMIs 5850 & 7730.

For these noncommercial services, voluntary financial support is much appreciated, thanks this week to generous Dan Sheedy, CA, who sent to Glenn Hauser, P O Box 1684, Enid OK 73702, ``some $ to help out your always helpful WoR info group. Cheers from DX-less Encinitas``

One may also contribute via PayPal, not necessarily in US funds, to woradio at yahoo.com

Confirmed UT Friday June 3 at 0330 on WRMI 7780, S7/S9 with storm crashes into far-offbeam Maryland SDR, the first SW airing this week.

Also confirmed Friday June 3 at 1430 on WRMI 9955, S5/S9 atop Cuban pulse jamming.

Also confirmed Friday June 3 from 1815.3 on IRRS SW via Bulgaria 7290, S5/S7 into NW Ireland SDR, on LSB to avoid USB warble. Also via AM Italia, Villa Estense, on both 918 & 1323 kHz at equal identical sound and levels into nearby Noale SDR; but not on LW 207.

As usual I tuned in by 1755 for what might precede: 1323 & 918 in some talk show; 7290 occupied only by the weak Chinese. 1800 cut to Feature Story News; and 7290 not cut on air till about 1800.85 JIP FSN and now // MWs. 1804 FSN Spotlite. 1805 instead of usual News in Brief from UN, into a kidchorus with a takeoff of ``Glory, Glory Hallelujah`` in

unknown language. 1806 some other music. 1809 intro the ``Top 5 of 1949``. 1810 ``You are listening to the Country Jamboree``, then cowboy song. 1815 IRRS ID with PO Box otherwise denied, 1815.3 into WOR until 1845 a show of Irish music.

WOR 2141 also confirmed Friday June 3 at 2030 on 918 & 1323, same good nearby reception as before, and no longer QRM from Romania presumably due to later sunsets.

Next: 0130 UT Saturday on 9395, as above (Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2141 monitoring: confirmed UT Sat June 4 at 0130 on WRMI 9395, S9+15/25 direct.

Also confirmed UT Sat June 4 at 0400 on WBCQ R. Angela, 5130, S9/+25 with storm crashes into Missouri SDR. Fortunately, no echo like there was the previous hour during FTIOM as checked on two remotes, Missouri and Maryland. How could that happen?

Also confirmed Sat June 4 at 1934 on WA0RCR, 1860 AM, MO via nearby remote, S9+5 steady, ending at 1955.5, so started a bit early.

NOT confirmed Sat June 4 at 1930 on WRMI 15770: instead, VOA Spe-cial Eng-lish news and features for the half hour! Now running VOA 1900-2000 except Sunday, Jeff White tells me.

Confirmed UT Sunday June 5 at 0030 on WRMI 7780, fair but lots of storm noise into Maryland SDR. Next:

0300vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0430]
1324vUT Sunday WMRI Europe via Ch 292 Germany 9670
2000 UT Sunday IRRS 1323 & 918? & 207?-Italy
2230 UT Sunday WRMI 5950 to NNW [to be canceled? still May 29]
0030 UT Monday WRMI 7780 to SW
0300vUT Monday WBCQ 6160v Area 51 to WSW
0030 UT Tuesday WRMI 9395 to NNW; 9455 to WNW
2230 UT Tuesday WRMI 9955 to SSE [jammed by Cuba]
2330 UT Tuesday WRMI 9395 to NNW
1000 UT Wednesday Unique R, Australia 5035-USB or 3210-USB
1030 UT Wednesday WRMI 5850 to NW
2100 UT Wednesday WBCQ 7490v to WSW
0030 UT Thursday WRMI 9395 to NNW; 9455 to WNW
0130 UT Thursday WRMI 5010 to S; 9395 to NNW
(Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2141 monitoring: confirmed UT Sunday June 5 at 0323 on WA0RCR, 1860 AM, MO, S9+8 but heavy storm noise into nearby SDR, about 20 minutes into so must have started way early circa 0303.

Also confirmed Sunday June 5 at 1355 on WMRI Europe via Channel 292, Germany, 9670, S5/S7 and noisy into NW Ireland SDR, about 23 minutes into so started circa 1332. Next:

2000 UT Sunday IRRS 1323 & 918? & 207?-Italy
2230 UT Sunday WRMI 5950 to NNW [to be canceled? still May 29]
0030 UT Monday WRMI 7780 to SW
0300vUT Monday WBCQ 6160v Area 51 to WSW
0030 UT Tuesday WRMI 9395 to NNW; 9455 to WNW
2230 UT Tuesday WRMI 9955 to SSE [jammed by Cuba]
2330 UT Tuesday WRMI 9395 to NNW
1000 UT Wednesday Unique R, Australia 5035-USB or 3210-USB
1030 UT Wednesday WRMI 5850 to NW
2100 UT Wednesday WBCQ 7490v to WSW
0030 UT Thursday WRMI 9395 to NNW; 9455 to WNW
0130 UT Thursday WRMI 5010 to S; 9395 to NNW
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2141 monitoring: confirmed Sunday June 5 at 2007 the 2000 on IRRS SW via AM Italia, 1323 kHz, S9 but stormy into nearby Noale SDR.

Also confirmed Sunday June 5 at 2230 on WRMI 5950, S9+5 into Knoxville SDR. Still running tho replaced on schedule.

Also confirmed, UT Monday June 6 at 0030 on WRMI 7780, S7/S9 into Knoxville SDR.

Also confirmed UT Monday June 6 from 0302.5 on Area 51 via WBCQ 6160 minus 61 Hz = 6159.939, S8/S9 into Maryland SDR; after W.D.C.D. cacophony running over, 0302 ID. Next:

0030 UT Tuesday WRMI 9395 to NNW; 9455 to WNW
2230 UT Tuesday WRMI 9955 to SSE [jammed by Cuba]
2330 UT Tuesday WRMI 9395 to NNW
1000 UT Wednesday Unique R, Australia 5035-USB or 3210-USB
1030 UT Wednesday WRMI 5850 to NW
2100 UT Wednesday WBCQ 7490v to WSW
0030 UT Thursday WRMI 9395 to NNW; 9455 to WNW
0130 UT Thursday WRMI 5010 to S; 9395 to NNW
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2141 monitoring: confirmed UT Tuesday June 7 at 0030 on WRMIs 9395 & 9455, both VG into PL-880.

Also confirmed Tuesday June 7 at 2230 on WRMI 9955, S9 direct with Cuban pulse jamming under, and about the same at 2259.

Also confirmed Tuesday June 7 at 2330 on WRMI 9395, S6/S9 direct.
Next:

1000 UT Wednesday Unique R, Australia 5035-USB or 3210-USB
1030 UT Wednesday WRMI 5850 to NW
2100 UT Wednesday WBCQ 7490v to WSW
0030 UT Thursday WRMI 9395 to NNW; 9455 to WNW
0130 UT Thursday WRMI 5010 to S; 9395 to NNW

Full schedule including AM, FM, webcasts, satellite, podcasts:
http://www.worldofradio.com/radioskd.html

For these noncommercial services, voluntary financial support is much appreciated, thanks this week to generous Dan Sheedy, CA, who sent to Glenn Hauser, P O Box 1684, Enid OK 73702, ``some $ to help out your always helpful WoR info group. Cheers from DX-less Encinitas``

One may also contribute via PayPal, not necessarily in US funds, to woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A. 15770, Monday June 6 at 1954-2000, WRMI successfully completes relay of VOA`s `Flashpoint: Ukraine`, S6/S7 via Maryland SDR. Quick check of 15770 yesterday Sunday June 5 sometime during the 19-20 hour heard the ``British Israel`` gospel huxter show not scheduled (Glenn Hauser, OK, WOR)

** U S A. 15770, June 7 at 1905, checking now 1-hour WRMI relay of VOA, S9+5/10 into Maryland remote but sounds like a local: introducing `International Edition` after presumed news, but cuts to music fill at 1908; VOA resumes at 1927 just in time for Editorial; 1930 news, 1935 `Flashpoint Ukraine` uncut today to 1959 (Glenn Hauser, OK, WOR)

** U S A. 15770, June 8 at 1859, WRMI explaining something about Islam, SMTV? cut off for ID, and 1900 VOA news; 1905 to music fill, 1916 the great solo `cello piece; no VOA editorial today but finally 1930 back to VOA news relay prior to `Flashpoint: Ukraine` at 1935. VG into Maryland SDR. Topix expand to China vs Uighurs at 1946; risk of cyberattax upon US (Glenn Hauser, OK, WOR) WRMI: see also unID 5985

** U S A. 7489.9v, UT Thu June 2 at 0017, WBCQ with `Cruisin` the Decades`, originating with The Summit, in Akron, surprised to hear here rather than WRMI. In fact, totally contradicts WBCQ websked: ``7490 We 2300 0030 UTC We 07:00PM 08:30PM EST [sic] Just Right 7490 Th 0030 0100 UTC We 08:30PM 09:00PM EST [sic] Americana Music Program``.

WRMI program page about one-hour show linx to WAPS:

https://thesummit.fm/about/program-schedule/
where there is absolutely nothing about Cruisin`, other than a generic airshift M-F 3-7 pm ET by Brad Savage (Glenn Hauser, OK, WOR)

** U S A. Re my log of `Cruising the Decades` on WBCQ, and my comments, Dan apparently forwarded to Brad Savage and this exchange:

``Brad, There was a report about Cruisin The Decades and how it is not listed on your page. Is the show still on? Thanks for any update. Best, Dan``

----- Forwarded message from "Brad Savage" <brad@thesummit.fm> -----
Date: 6/3/2022 at 12:44 PM
Subject: Re: radio show question

``Hi Dan! It sure is. We're actually working on a new website for that show specifically, because the "global" version is now heard on 17 stations across the U.S. and Europe. It's on shortwave (WRMI, WBCQ, and Channel 292) at various times plus several AM/FM/community stations.

Here in Ohio, the "regular version" of the show is on The Summit at 5pm on Fridays. We also broadcast the "global" edition shared with all the other stations, and that is on at 12mid Saturday nights (technically Sunday morning at 12:01am) [EDTs]

KEEP TUNED and thanks! BRAD --- Brad Savage, Program Director, The Summit, WAPS 91.3 FM Akron/Canton, WKTL 90.7 FM Youngstown/Warren, W211BT 90.1 FM Athens; 309 Woolf Ave, Akron OH 44312; 330-761-3098; thesummit.fm rockandrecovery.com the330.net kidjamradio.com ``
(via Glenn Hauser, WOR)

** U S A. (7489.9v), UT Sat June 4 at 0050, WBCQ webcast of `AAAWWW` which I quickly recognize as repeat of last week; insults to left-wingers. Never mind (Glenn Hauser, OK, WOR)

** U S A. (7490v), Sunday June 5 at 2300, WBCQ webcast with music fill instead of Harry Shearer`s `Le Show`, as I continue listening after `UBMP` with Roma music. Eventually just dead air, presumably also on 7490 broadcast. 2323 fires WBCQ legal ID, more DA; 2327 finally start `Le Show` opening; so will it run past 2400? No, cut to ID and `Voice of Revival`. Something`s mixed up at Monticello (Glenn Hauser, OK, WOR)

** U S A. 9975, June 2 at 0007, no signal from KVOH even tho WWCR finished with 9980 at 0000. O, I see on KVOH sked that altho Spanish starts at 0000 except UT Mondays, it`s streaming only until English starts SW at 0100; strange.

BTW, WWCR normally makes some schedule adjustments on June 1, but website https://www.wwcr.com/transmitter-sched.html still does not show a new schedule after May 31 expiration! (Glenn Hauser, OK, WOR)

** U S A. 9265, June 8 at 0620, dead air instead of dead Stair on WINB; succeeds on other outlets: 5890 WWCR, 7570 WRMI (Glenn Hauser, OK, WOR)

** U S A. 5970, June 2 at 0010, WEWN must have fixed its night Spanish transmitter, now back on air after a few weeks - S9+20 with call-in, discussing gas prices, Juan Carlos. Not exactly RCC liturgical stuff, but anchorette frequently exclaims ``gracias a dios`` so projects piety. English, longer gone from 9385 at night, is still absent at 0152 check (Glenn Hauser, OK, WOR)

** U S A. 1130 kHz, June 7 at 2100 UT check, KLEY Wellington KS is OFF: station which alternated between weeks of 24h dead air and weeks of 24h rock. Finally given up? We`ll hear (Glenn Hauser, OK, WOR)

** U S A. Finally my first sporadic E FM DX session of the season, June 3 at 1517-1640 UT from Florida et al.; also 2326-2344 UT from Minnesota. And also 10m ham beacon DX from all over at 2205-2248. Researching all this is not finished before I need to dispatch this report, so will have details for next time (Glenn Hauser, OK, WOR)

** U S A. Finally my first sporadic E FM DX of the season: DXMAPS indicates some high MUFs, so June 3 at 1517 UT, I start bandscanning: on the south-facing porch only a metre above ground level to minimize local and fringe signals which are always in the way and somewhat tropo-boosted in the morning; and on the battery-powered DX-398 with telescopic antenna only, which I can swiftly manipulate vs QRM or to take advantage of polarizations; PL-880 as backup but not needed: its tuning is haywire, requiring locking down any frequency tuned lest it wander around, and certainly no bandscanning with it. Meanwhile a cat quizically wonders what`s going on upon his favorite table perch. Primary reference in the aftermath is the excellent WTFDA FM Database. Distances are approx., city-to-city from distancefromto.net, not exactly transmitter to receiver coördinates. Note: I do not count stations, states or anything, and am not in competition. Many logs are circumstantial after considerable research. I am open to any correxions or assistance in IDs. Also, the fun for me in this is the detail and research, despite it taking a lot more of my time than the original DXing! My eyes glaze over to DX logs condensed to one line as some editors insist upon.

88.7, first channel checked, since already tuned as I also use it for internal RF feeding, at 1517, break in `1-A` show, 1518 mentions Troy

Public Radio, so it is: WRWA, Dothan AL, Troy University Public Radio, 50 kW h&v u.o.s., 143 m HAAT. 1287 km = 800 mi

88.7, at 1523, brief CCI to above and/or Ponca City, ID as ``Z-88.3``. Yes, NOT 88.7. This fits exactly: WMYZ, relay of: WPOZ 88.3, The Villages FL, ``Z-88``, 35 kW/82 m. That previously unheard-of city of 51K as of 2010y is just south of Ocala. 1702 km = 1058 mi

91.9, at 1525 & 1528, Moody Radio promos vs KS? CCI. Only fit in PTA is: WMBV, Dixons Mills AL, 62 kW/187 m. DM is a tiny town of 290 as of 2010y in west central Alabama; that`s 4.68 people per kW ERP. 1045 km = 649 mi

96.5, at 1530, toe fungus and Tracfone ads, 1531 ``Z 96.5``. Only hit is beyond probable target area: WAZY-FM, Lafayette IN, CHR, 50 kW/152 m. UNLESS search on Z96 without a space or hyphen, ergo: WZNS, Fort Walton Beach FL, CHR, 100 kW/140 m. Again at 1607, see below. 1238 km = 769 mi

96.5, at 1531, CCI to above, Spanish music. Lots of LP and a few full power possible in US, but very likely WOEX Orlando FL, 99 kW/454 m. 1774 km = 1102 mi

99.5, at 1533, ``Big Country 99-5``: altho there is a little WV by this slogan, rather it`s: KXBL, Henryetta OK, 100 kW/299m, rimshotter to Tulsa market. I leave these non-DX in for informational purposes. 201 km = 125 mi

104.3, at 1534, promo for something - ``--- Country`` --- too many possibilities, but not OK or KS

90.1, at 1535, NPRish talkshow, not OK or KS

90.7, at 1536, ballad. This is one of few `open` channels here in non-comm band, but always with ACI from both sides

93.3, at 1538, ad for Bartow Ford, rock: Bartow is 17K town east of Tampa, but it caters to the Tampa market where there is: WFLZ-FM, 97 kW/472 m. 1725 km = 1072 mi

94.9, at 1539, classic rock, RDS tries to engage; 1541 ``Tampa Bay`s best music``: WWRM, Tampa, Magic 94.9, 97.3 kW/470 m. Also at 1628, below. 1725 km = 1072 mi

92.9, at 1543, gas promo code FULL; Girl Scout Twin Mints; Southwest Florida golf ---; RaysPlumbingInc.com - which is in Punta Gorda, Sarasota County, Englewood, Charlotte County; 1547 ``Kix Country``: WIKX, Charlotte Harbor, Kix Country, 100 kW/246 m. 1823 km = 1133 mi

92.9, at 1544, CCI to above mentions Ocala; weather: WMFQ, Hot AC, 92 Q, 50 kW/145 m. 1672 km = 1039 mi

Also CCI? by YL from Weather Center; 929 Foxy? But no hits on that

94.1, at 1549, Tampa ad; 1550, ``Wild 94-1``: WLLD, Lakeland FL, rhythmic CHR, 100 kW/455 m [not WILD]. 1759 km = 1093 mi

99.3, at 1553, rap; 1554 ``993TheBeat.com``: WEBZ, Mexico Beach FL, classic hip-hop, 50 kW/150 m [not a 6 kw in Pine Bluff AR of same slogan]. M.B. is between Pánama City and Port St Joe. 1362 km = 847 mi

103.7, at 1556, K-LOVE, praise music, RDS with song titles: KYLK, Okemah OK, 72 kW/282 m. 178 km = 111 mi

93.3, at 1601, mention Orlando; 1603 ``Coast 93-3``; 1604 ``93-3 FLD``?, weather, Tampa Bay, iHeart station: this is mixture of 2 stations: WFLZ-FM, Tampa, CHR, 93.3 FLZ, 97 kW/472 m. 1725 km = 1072 mi; AND:
WNCV, Shalimar FL, soft AC, Coast 93.3, 50 kW/140 m. Again at 1635, below. Shalimar is between Niceville and Ft Walton Beach on the Panhandle coast. 1238 km = 769 mi

96.5, at 1607, ``Z96``, RDS is Z96_____ = +5 blank spaces; about tattoos, ``#1 hit music station``: as above 1530 log: WZNS, Fort Walton Beach FL, CHR, 100 kW/140 m. 1238 km = 769 mi

96.5, at 1613, CCI to above, ``Alive FM``: WBBL, Richton MS, southern gospel, 5.7 kW/175 m. Richton is just E of Hattiesburg in SE MS; rare state by Es, mostly too close. 997 km = 620 mi

94.3, at 1620, Lake City ad, CCI: WNFB, Lake City FL, AC, Mix 94.3, 50 kW/150 m. 1573 km = 977 mi

94.3, at 1622, CCI to above mentions Alabama. Of the 3 AL stations beyond low-power, most likely this near Dothan in SE corner: WIZB, Abbeville, Joy FM Network, 19.5 kW/36 m. 1280 km = 796 mi

92.9, at 1624, ``SR 22 Insurance, 800-665-0129``. First thought maybe name of insurance co. on a state route - highway, but search finds that refers to an official document form effective in OK and perhaps elsewhere. But the 800 leads to MT Printing, Kitchener-Waterloo ON. Why would they be advertising? Maybe just Tulsa

92.1, at 1625 ``Gulf Coast Rock Alternative`` -- no WTFDA hits on any word in slogan field, but looking at all in Florida, one has that

exact website among remarx!: WECQ, Destin, Rock 92.1, 19 kW/115 m. 1249 km = 776 mi

94.1, at 1627, ``The Bay, Party Station, Y94-1``. No, it`s Wild 94-1, as already logged above at 1549; WLLD, Lakeland FL, 100 kW/455 m, in PS Info field: ``WiLD 94.1 the Bay`s Party Station``. 1759 km = 1093 mi

94.9, at 1628, 813 AC - Tampa, Ray Reynolds loans` ``Magic 94-9``: same as at 1539: WWRM, Tampa, Magic 94.9, 97.3 kW/470 m. 1725 km = 1072 mi [note: when I put a dash between numbers as spoken, it means no ``point``]

93.3, at 1635, RDS: COAST933. Also mentions iHeart. Same as 1603 log above: WNCV, Shalimar FL, soft AC, Coast 93.3, 50 kW/140 m. 1238 km = 769 mi

103.5, at 1639, Macy`s ad, ``Power 103.5, Number 1 Hip-Hop Station``. Merely: KVSP, Anadarko OK, rimshot to OKC: bet you didn`t know native Americans were into Macy`s or hip-hop. 150 km = 93 mi

By 1640 I`m no longer getting Es DX, from FL or anywhere, so quit, and shortly checking the DXMAP, see FL is completely out of skip zone now, moved further to N and W, i.e. MUF if any is skipping right over OK. At 1748 a quick check on caradio finds no Es either (Glenn Hauser, Enid OK, WOR)

** U S A. In between sporadic E openings into the FM band, June 3 at 2205-2248 UT, I get some lower-MUF beacons on the 28 MHz ham band: this log sexion now appears above toward the start of U S A

** U S A [and non]. Another sporadic E FM DX session June 3, this time on stock 2004 Nissan caradio with fixed antenna, no RDS:

92.1, at 2326 UT, baseball game, but maybe not same station as central Minnesota ad at 2327 for concrete products, Brainerd. Closest one to there is: WYRQ-FM, Little Falls, country, 6 kW/91 m. 1117 km = 694 mi

93.1, at 2329, ``93-1, The Border`` atop Kansan: CFOB-FM, Fort Frances ON, 21 kW/81 m. 1407 km = 874 mi. Right across from International Falls MN

93.3, at 2334, ``Z 93.3, Today`s Best Country``, Brainerd mention or is that CCI? KBLB, Nisswa MN, country, B 93.3, 100 kW/170 m. Nisswa is just north of Brainerd. 1162 km = 722 mi

94.5, at 2337 hard rock f/in/out; 2344 more like praise rock, and 2345, ``taking the stress away from a long day, love songs and

Delilah[?], Y94``. No hits without a space or hyphen. With a space, only words ending in Y space 94, like MightY. With a hyphen, only one hit but doesn`t fit format or PTA, FWIW: WYYY, Syracuse NY, AC, 100 kW/198 m. 1993 km = 1239 mi. Maybe not really a Y?

After a break, one more caradio session, UT Sat June 4 at 0137-0207:

94.5, at 0137, C&W, YL DJ, mentions Georgia? Only full power in GA is : WBYZ, Baxley, Country, Z 94.5, 100 kW/309.1 m - but need more to ID. 1517 km = 943 mi

96.7, at 0139, C&W, got to be Es DX on locally vacant channel. At 0150, romantic rock music

94.5, at 0145, ``Richmond`s Q94`` with CCI: WRVQ Richmond VA, 200/200 kW, 107 m. Look at that power! Old grandfathered station? 1817 km = 1129 mi - not the Richmond in NSW!

97.5, at 0159, C&W music, mix baseball game. Likely Es, anyway.

Nothing more to report until I quit at 0207 UT. Besides all the CCI and ACI, also frustrating are all the national ads which have no local references; even some weather reports manage to avoid anything local; and too much long music trax especially in the evenings (Glenn Hauser, OK, WOR)

** VANUATU. 7890, June 3 at 0630, JBA carrier in bandscan, so I know R. Vanuatu must have reactivated 3945 and its harmonix, and immediately tune to X3 =

11835: song unseems ``island music`` past 0636 and none of usual drumming and announcements at this time; weaker than usual S5/S6. Manuel Mêndez, Spain and Ron Howard, CA, also caught it back on.

BTW, Vanuatu has made an aid deal with China, which is spreading its influence among Pacific islands, like already with Solomons; diminishing Australian, US influence. Ron Howard refers us to:

China strengthening ties with Vanuatu
https://english.news.cn/20220601/b0054fa85650433bb752cf34f5d2f614/c.html

And DXer Bruce Churchill, Capt., USN, ret., replies: ``I hope no one really thinks that China is only interested in promoting benign “cooperation” with Vanuatu (or any of the other 10 Pacific Island nations they are courting). What they are really doing is taking advantage of total neglect of these nations by both the U.S. and Australia – in China’s “36 Stratagems” long-term strategy (Google “36 Stratagems” for more info), #12 is “Seize the Opportunity to Lead Away

a Sheep”…in other words, take advantage of (in this case) a power vacuum when it presents itself. China’s long-term plan for the Pacific is a threat to both Australia and the U.S., and for those not steeped in history, think Tarawa, Peleliu, Truk, Kwajalein, Guam, Saipan, et al., that we had to wrest from Japanese control at the cost of many thousands of American lives. “Those who neglect history are doomed to repeat it”, as the familiar saying goes. Bruce``

Remains to be heard if RV will keep going on 11835 rather than a one-shot like the week before (Glenn Hauser, OK, WOR)

** VANUATU. 11835, June 4 at 0617, RV is on 3 x 3945 again for a second night of latest reactivation, S3/S8 with country song (Glenn Hauser, OK, WOR)

** VANUATU. 11835, June 5 at 0633, R. Vanuatu still active on 3 x 3945, S5/S8 direct with ballad. Manuel Méndez, Spain via remote in NZ, found RV before 0559* today on 5040 instead of 7260 (Glenn Hauser, OK, WOR)

** VANUATU. 7890, June 6 at 0606, JBA carrier; and 11825, JBA vs HSNL = high storm noise level, locally, enough to tell that 3945 harmonix are still emitted. Some also hear it on X4 = 15780. How about X5? That would be 19725 (Glenn Hauser, OK, WOR)

** VANUATU. 11835, June 7 at 0627, RV S8/S9 with YL in Bislama; 7890 has some JBA talk rather than JBA carrier; and even 15780 has a JBA carrier, hard to believe it`s anything but RV on 4X 3945 as well as 3X and 2X. 15780 has been reported by Pacificans. Now how about 5X = 19725? A remote westward into the dayside may be required. As for 11835, Ron Howard has posted some amazingly strong clips of it, you would never guess were harmonic (Glenn Hauser, OK, WOR)

** VANUATU. 11835, June 8 at 0615, R. Vanuatu is gone again from 3 x 3945. Checking all known frequencies before and after 0600, Ron Howard heard it nowhere. When on, it`s amazingly good, as in Ron`s clip at 0630 June 5: https://bit.ly/3mhGakw (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 5985, Thursday June 2 at 0605, open carrier. Nothing scheduled; best guess is WRMI-2 on air for some reason despite extremely reduced schedule: on transmitter grid it`s Monday only at 0500-0600 with System F but yellow instead of red. On System F grid in red it`s ``Yeshua Messiah Min.`` 5985 also appears as System K in green at 0400-0430 NHK in Spanish, which is long gone. In Aoki, 5985 at 0500-0600 UT same for UT Monday but also UT Sunday with `La Rosa de Tokio`. EiBi Shows `LRT` Sunday only, Argentina non; but also has not expunged deleted 0330-0500 5985 entries (Glenn Hauser, OK, WOR)

TIPS FOR RATIONAL LIVING

William Falk May 28, 2022
America's metastatic cancer --- How rampant distrust is killing us

Schools. Churches. Synagogues. Supermarkets. The victims of the last massacre, in Buffalo, were still being buried this week when another disaffected young man armed with an assault weapon slaughtered 19 children and two teachers in Uvalde, Texas. So far this year, this broken nation is averaging 10 mass shootings of four or more people every week. The same country recently passed 1 million COVID deaths — far more than any other nation.

Tens of millions of people believe the 2020 election was stolen, and democracy itself stands on crumbling ground. Sharply conflicting abortion laws will inflame the rancor between blue and red states. Even the supposedly nonpartisan Supreme Court has split along the seams, with justices openly expressing scorn and suspicion of the enemy faction.

These are all symptoms of an underlying metastatic disease: a lack of trust. The reason Australia had a per capita COVID death rate one-tenth of ours, The New York Times recently reported, is that Australians trusted their scientists, their government, and each other, while Americans emphatically did not. In a very real sense, 900,000 Americans died of distrust.

Americans cannot trust that our kids will go to school without being shot. We can't trust people to wear masks in a pandemic, because so many insist they have a right to infect others. We can't pass sensible gun-safety laws because some people passionately believe they need weapons of war to defend themselves against government tyranny.

Many Americans no longer trust organized religion, corporations, capitalism, their employers, or the media. We do not share a common set of facts and values. We have self-sorted and retreated into our own worlds, our own websites, social media feeds, cable networks, and communities. Separated by impenetrable walls of tribal loyalty, we cannot come together to solve our problems, even when they are killing us. Thoughts and prayers.

This is the editor's letter in the current issue of The Week magazine.
